#### TWO RAILWAY LABOR LEADERS WHO SEEK TO AVERT BIG STRIKE

Whether federal mediation, sought by the railway department of the Amer ican Federation of Labor, results in a settlement of the switchmen's strike on the Hill lines or not it is believed that a concerted demand will be madfor an increase of wages by 200,000 trainmen and other employees of the operating departments of the eastern lines within a few days. Henry B. I'er ham of the American Federation of Labor asked for a conference with Pres ident Taft and the interstate commerce commission with a view to ending the present strike. He and many other labor leaders say the American Rall way association is acting concertedly to prevent wage increases. Unofficial requests have been made for increases by the operating employees of several eastern lines and have received little encouragement; hence the talk of extending the strike. Frank T. Hawley, head of the switchmen's organization. believes the strike will spread. The increases demanded range from 5 to 40 per cent above the present wage scale. Concerted action to secure this in crease will be taken by the following organizations: The Brotherhood of Rail road Trainmen, including switchmen; the Order of Railroad Conductors, the Order of Railroad Telegraphers, the Brotherhood of Locomotive Firemen and Engineers and the grand lodge of the Brotherhood of Locomotive Engineers
